

## The Centurions of Carondelet St. Mary's

The Centurions are an associate support group of Carondelet St. Mary's Hospital with an active membership of 100 of some of the community's most prominent business and civic leaders. The name was chosen to honor the one hundred years of service given Southern Arizona by Carondelet St. Mary's Hospital and to reflect the members' business and civic leadership in the community by the historical reference to the Roman Centurion (a leader of 100 soldiers.)

The group was founded in 1968 to help raise money for St. Mary's Burn Center which, at that time, was in need of support. Through the efforts of the Centurions and the generosity of the Tucson community, the Burn Center gradually became more established and the need for support diminished.

In 1983, the Hospice program came to St. Mary's in dire need of assistance. The hospital at that time requested that the Centurions direct their fund raising efforts to St. Mary's Hospice, as well as other selected hospital projects.

Since the 1980s, the Centurions have raised over \$3 million dollars for these various projects. The Centurions completed a pledge of \$1 million dollars to the Rehab Facility in 2001 and a \$1.35 million pledge to the Emergency Department in 2005. In 2008, the Centurions began a \$2 million, 5-year commitment.

## Carondelet St. Mary's Hospital/ Centurion Goals

The roots of CHN will be forever linked to the founding of St. Mary's Hospital in 1880. As Tucson's first hospital, it has served generations of Southern Arizona families. Today, St. Mary's, the only hospital on Tucson's west side, offers a full-range of comprehensive inpatient and outpatient services.

As part of the new construction across Carondelet Health Network, the organization has developed a plan to update the St. Mary's medical campus. This plan includes a significant investment over the next five years and involves the strategic use of targeted renovations and new construction.

Through Carondelet's Fulfilling the Promise Capital Campaign, the Centurions will provide \$2,000,000 in funding toward the following key projects:

- Reconfigured Main Entrance and 1st Floor
- New Outpatient Waiting Center
- Healing Gardens
- New inpatient medical and surgical units
- Exterior improvements
